PROJECTS

RAG-Based AI Teaching Assistant

[GitHub](#)

- Built end-to-end Retrieval-Augmented Generation system for contextual academic Q&A
- Used Whisper, embeddings, FAISS vector search and LLM response pipeline
- Reduced irrelevant responses by 30% using optimized retrieval logic
- Improved response quality with semantic chunking and better prompt design
- Supported document-based intelligent search across uploaded study material
- Deployed demo using Gradio on HuggingFace Spaces
- **Tech:** Python, FAISS, Transformers, Gradio

Insta Manager Bot – Instagram Automation Tool

[GitHub](#)

- Flask-based automation tool for engagement analytics and insights
- Automated login flow and stored data using SQLite
- Built responsive dashboard for profile monitoring
- Added follower growth and engagement tracking system
- Generated downloadable reports for account statistics
- Improved usability with clean web interface design

IPL Cricket Data Analysis

[GitHub](#)

- Performed EDA on IPL dataset (2008–2024) using Python
- Visualized top performers, venue trends and match insights
- Analyzed winning patterns across teams and seasons
- Created charts for toss impact and batting first advantage
- Identified player consistency using historical performance data
- **Tech:** Pandas, Matplotlib, Jupyter

EDUCATION

2025 – Present	B.Tech in AI & ML Engineering, Sage University Indore	CGPA: 7.57
2023	Senior Secondary (12th)	64%
2021	Secondary (10th)	75%

TECHNICAL SKILLS

Languages:	Python, JavaScript, SQL
Libraries:	NumPy, Pandas, Matplotlib, Scikit-learn, Flask, Bootstrap
ML:	Logistic Regression, KNN, Decision Trees, Random Forest, SVM
Tools:	Git, GitHub, VS Code, Jupyter Notebook, TensorFlow
Other:	LLMs , Data Analysis, React.js

ACHIEVEMENTS

- Recognized for strong performance in AI & coding projects during first year
- Published and maintained multiple real-world projects on GitHub

CERTIFICATIONS

- AWS Data Engineering – Amazon Web Services (November 2025)
- Microsoft Certified: Azure Fundamentals – Microsoft (June 2025)
- Google Cloud Engineering Certificate – Google (Oct 2025)
